Earth Day... ...Every Day!

41pounds.org

Cut Down your Carbon Clutter!

41pounds.org will contact 20 to 30 direct mail companies on your behalf to stop the majority of your bulk mail. With just a few minutes and \$41, you're finished — for five years! You can sit back and enjoy the benefits —

Save trees. More than 100 million trees are destroyed each year to produce junk mail. 42% of timber harvested nationwide becomes pulpwood for paper.

Reduce global warming. The energy used to produce and dispose of junk mail exceeds 2.8 million cars.

Save water. About 28 billion gallons of water are wasted to produce and recycle junk each year.

Save time. You waste about 70 hours a year dealing with junk mail.

Plus, 41 pounds will donate to an environmental charity of your choice. Choose from Earth Share member charities and other important organizations. Visit them online: www.41pounds.org

Catalog Choice

Each year, 19 billion catalogs are mailed to American consumers.

By contacting

catalogchoice.org you will reduce the number of repeat and unsolicited catalog mailings, a service freely provided by this organization to both consumers and businesses.

Sign up. Fill out our on-line registration form using your name and primary mailing address.

Find your catalogs. Find and decline your catalogs, using the Catalog Choice search facilities. They'll then contact the catalog providers on your behalf, requesting that your name be removed from their mailing lists.

See the results. It can take at least ten weeks to process your request, after which time you should no longer receive your declined catalog. Catalog Choice is designed for your continued use. Upon receipt of additional unwanted catalogs, return to this website to decline them.

You can find them online:

www.catalogchoice.org

Man has been endowed with reason, with the power to create, so that he can add to what he's been given. But up to now he hasn't been a creator, only a destroyer. Forests keep disappearing, rivers dry up, wild life's become extinct, the climate's ruined and the land grows poorer and uglier every day. Anton Chekhov
